In a departure from the academic today . . . it's hard not to notice that we are getting A LOT of snow this week! This brings mixed reactions, I know, but I'm going to suggest embracing it. If you can get outside safely, there's big benefit to getting some exercise and fresh air.

"Exercising in natural environments was associated with greater feelings of revitalization and positive engagement, decreases in tension, confusion, anger, and depression, and increased energy." (1)

Some nearby snowy adventures:

**Clarkson Trails**
The Munter trail allows for beautiful views along the river. There's a trailhead at Stewart's parking lot. There are also several miles of recreation trails in the hill campus forest (the "Back 40"). These start from the parking lot just beyond the Adirondack Lodge & water tower. Additional trails are tracked for XC skiing in the winter. The website offers detailed maps. The Clarkson University Outing Club (CUOC) has gear you can borrow - contact the appropriate group chair.

**Higley Flow State Park**
About a 20 minute drive from downtown Potsdam, the park offers miles of groomed XC ski trails out in the snowy woods. Snowshoeing is allowed also. Ski and snowshoe rentals available. Night skiing is offered every Tuesday evening.

**Nicandri Nature Center**
Located at Robert Moses State Park in Massena, about a 40 minute drive from downtown Potsdam. You can explore their winter trails on XC skis and snowshoes that are available for use for FREE!

If you've got the gear, there are many more snowy adventures to be had. Explore [STLC Trails](#).

Get out there, have fun, and get your endorphins up! (2)
